Comprehensive and continuous assessments delivering insights that blueprint a path to stronger security posture.

**PROVEN**
Scanning tools leveraging global security machine learning paired with human analysis

**CONTINUOUS**
Maximizing benefits through rigorous security optimization and prioritization

**STRATEGIC**
Proactive consulting to resolve vulnerabilities and blueprint future protections

**IMPROVEMENT IN SECURITY POSTURE**
with layered security approach to scanning and remediation

**LAYERED SECURITY**
**PROACTIVE SECURITY VISIBILITY**

96% of blind spots exploited before detection due to unidentified and unresolved vulnerabilities in 7.3 days.
**WHAT MAKES OUR SECURITY BETTER**

**ENTERPRISE SOLUTIONS. PERSONAL SERVICE. LOCAL TOUCH.**

**SECURITY VISIBILITY MATURITY MODEL**

**Segmentation Testing**
Access and permission verification between devices and networks
- Continuous Process Automation
- Continuous Security Process Evolution
- Continuous Threat Trend Analysis

**Penetration Testing**
Network intrusion risk assessment
- Continuous Process Automation
- Continuous Security Process Evolution
- Continuous Threat Trend Analysis
- Rigorous Risk Prioritization
- Tactical Gap Remediation
- Destructive Techniques and Hacker Mentality
- Verified Security Controls
- Level of Compromise Reporting

**Vulnerability Scanning**
Individual workstations, servers and network devices
- Continuous Process Automation
- Continuous Security Process Evolution
- Rigorous Risk Prioritization
- Tactical Gap Remediation
- Internal and External Scan
- Prominent and Moderate Risk Systems
- One-Time Scan
  - Single point in time vulnerability report
- Non-Existing
  - No scanning or visibility to vulnerability gaps

**MISCONFIGURATION AUDITING**
Gain visibility of your entire ecosystem of technology and services
- Utilize proven benchmarks to identify and correct misconfigurations that pose security risks
