EMPLOYEES SUSCEPTIBLE TO PHISHING ATTACKS
due to careless clicking of malicious emails

90
DAYS

RAPID INCREASE OF SECURITY AWARENESS
decreasing vulnerability by 50% in the first 90-days

SIMULATED EMAIL PHISHING CAMPAIGNS

SIMPLE ONLINE TRAINING

EASY TRACKING AND REPORTING

The illustration shows a yellow envelope with a red skull icon and a red arrow pointing to an 'OPEN' button. Next to it is a calendar icon. In the center is a computer monitor displaying a training interface with video player icons and 'START' buttons. To the right is a donut chart with a percentage sign and a bar chart with a green checkmark.

LAYERED AWARENESS THAT ENHANCES SECURITY POSTURE

ONLINE TRAINING

- Curates training curriculum videos aligned to prioritized security topics
- Segments training curriculum for specific departments, roles, access and influence
- Delivers enhanced training curriculum based on additional compliance requirements, including:
 - Health Insurance Portability and Accountability Act (HIPAA)
 - Payment Card Industry Data Security Standard (PCI)
 - California Consumer Privacy Act (CCPA)
 - Personally Identifiable Information (PII)
 - General Data Protection Regulation (GDPR)

EXAMPLE SECURITY TRAINING TOPICS

- Current Common Threats and Trends
- Two-Factor Authentication
- Password Security
- Social Engineering
- Phishing Fundamentals
- Reporting Unsolicited Phishing Emails
- Ransomware

SIMULATED EMAIL PHISHING CAMPAIGNS

- Sends simulated phishing emails to targeted employees and departments
- Monitors open and click rates of email campaigns to measure phishing vulnerabilities
- Analyzes behavior patterns and themes
- Identifies beneficial security training and initiatives to correct phishing-prone behaviors
- Continuously evolves blueprint for future phishing campaigns that improve and enrich awareness and visibility
- Adjusts blueprint of recommended security training and future phishing campaigns to optimize behavioral improvements

TRACKING AND REPORTING

- Delivers visibility to security risk scores by location or group
- Aggregates security training completion percentage rates and scores by employee, location or group
- Reports phishing campaign fail rate over time
- Reveals areas to prioritize security training
- Provides individual employee security awareness report card based on training and phishing campaigns
- Centralized portal for viewing security posture statistics along side other Centre services

HOW TO KNOW IF WE'RE A GOOD FIT

- ✓ You can't risk employees cluelessly clicking on malicious emails anymore.
- ✓ You're looking for a simple way to educate employees on HIPAA, PII, PCI, and other security policies.
- ✓ You need to keep security threats top of mind for all employees.
- ✓ Your employees are tuning out from boring training sessions.
- ✓ You want to easily track the level of cybersecurity awareness across your entire organization.
- ✓ You want to save money on Cyber Insurance and avoid claims being denied.
